

SULAIMAN MOHAMMED DAWOOD

Data Analyst

Giza, Egypt | P: +201155865990 | sulaiman9553@gmail.com | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

PROFILE

Detail-oriented Data Analyst with a strong foundation in data cleaning, visualization, and statistical analysis. Proficient in SQL, Excel, and Python, with hands-on experience using Power BI and Tableau to turn complex data into actionable insights. Adept at problem-solving, interpreting trends, and supporting data-driven decisions. Motivated to apply analytical skills in real-world business contexts and continuously grow in advanced analytics.

EDUCATION

CAIRO UNIVERSITY

Faculty of Commerce

Grade: Very Good

Cairo, Egypt
Expected Jul 2026

EXPERIENCE

DEPI – DIGITAL EGYPT PIONEERS INITIATIVE

Data Analysis Trainee

Cairo, Egypt
Jun 2025 – Dec 2025

- Cleaned and transformed large datasets using SQL and Python, improving data accuracy and consistency.
- Created interactive dashboards with Power BI and Tableau to track KPIs and support decision-making.
- Collaborated with team members to build automated data workflows, reducing manual reporting time.

PROJECTS

CONTOSO RETAIL ANALYSIS

Jul 2026

- Built an interactive retail analytics dashboard using Streamlit, Python, SQL Server, Pandas, and Plotly.
- Developed visualizations for KPIs, sales trends, customer behavior, regional performance, and cohort analysis.
- Delivered actionable business insights through interactive dashboards and data storytelling.

SUICIDES IN EGYPT – DEPI PROJECT

Dec 2025

- Cleaned 1,700+ suicide records (2011–2017) using Power Query, handling missing values.
- Automated translation with Python (googletrans) and SQL seasonal features for trend analysis.
- Built Power BI dashboards (KPIs, maps, decomposition trees) revealing demographic patterns.

PREMIER LEAGUE TEAMS

Sep 2025

- Built an interactive dashboard analyzing performance data for all Premier League teams across three seasons.
- Visualized key patterns including home/away performance, goals, and card impact using intuitive charts.
- Cleaned and processed raw football data using Python (Pandas) and SQL for accurate analysis.

CERTIFICATIONS

DATA ANALYST IN POWER BI — DataCamp

Apr 2026

GOOGLE ADVANCED DATA ANALYTICS — Google

Mar 2026

DATA ANALYST ASSOCIATE — DataCamp

Dec 2025

AI AND MACHINE LEARNING FOUNDATIONS — Sprints

Jun 2025

ADDITIONAL

TECHNICAL SKILLS

Advanced in Excel, SQL, Power BI, Tableau, Looker Studio

Proficient in Python (Pandas, NumPy, Matplotlib, Seaborn, Plotly, SciPy, Scikit-Learn), R, Data Cleaning & Transformation

Familiar with Jupyter Notebook, Google Sheets, Git, Data Wrangling, and Statistical Analysis

SOFT SKILLS

Analytical Thinking, Attention to Detail, Problem-Solving, Critical Reasoning, Data Interpretation, Effective Communication, Business Acumen, Time Management, Adaptability, Collaboration in Cross-Functional Teams
